Hello from A&K Down Under,

As we look forward to future travel, the urge to get out and explore is stronger than ever. Taking out a coveted spot on Conde Nast's '21 Places to Go in 2021' list, Tasmania's picturesque landscapes are complimented by a kaleidoscope of epicurean delights and friendly locals, making it a truly dreamy destination.

Tasmania punches well above its weight when it comes to natural beauty and for the active adventurers there are endless ways to explore, from walking the idyllic coastal scenes of Flinders Island to tramping the alpine plateaus of Cradle Mountain. A golfer's paradise, the Apple Isle is home to two of Australia's top five courses in Barnbougle's The Dunes and Lost Farm.

No Tasmanian tour is complete without a visit to the Raptor Refuge. An AKP-supported conservation organisation, who rescue and rehabilitate birds of prey from owls to eagles, helping these majestic raptors to soar again. A visit with A&K means behind-the-scenes access, witnessing the day-to-day operations of this inspiring place, meeting the feathery residents and seeing first-hand the impact of this spectacular work.

Be inspired by a selection of our favourite Tasmania itineraries below and on our [website](#), and we are waiting to welcome back intrepid travellers to Australia and New Zealand, when the world is ready to start exploring again.

Kind regards,

Kathie Sikkes
