Abercrombie & Kent

WELCOME TO  
**JORDAN**

# There is travel and there is Abercrombie & Kent

Ever since I first visited Jordan, I have been completely charmed by its culture and the friendliness of its people – and amazed by its incredible sights. So I was thrilled when we were finally able to set up our own Abercrombie & Kent office in Amman 1998.

Since then, A&K has been pioneering fresh ways to show visitors the wonders of this fascinating kingdom, which for such a tiny country has an extraordinary wealth of history and landscape. From the Greco- Roman beauties of Jerash, to Crusader castles, and the unique Nabatean city of Petra carved into the rose-red rock itself, the echoes of past civilisations still tantalise today's traveler. Mix in a little romance with the stunning desert - scapes of Lawrence of Arabia's beloved Wadi Rum, plus an opportunity to experience the unique waters and luxurious spas of the Dead Sea - and you have one of the world's great destinations.

Having our own office in Jordan enables A&K to oversee every detail of a tailor-made programme, starting with an in-depth knowledge of the destination that means we can plan itineraries with exceptional care and sensitivity to the needs of each individual traveler. Then once our guests arrive, we ensure they see Jordan's wonders in comfort and style, with seamless ground operations and an unmatched level of personalized service. With A&K, you can be sure that a visit to Jordan will be a travel experience never to be forgotten.

With best regards

Your professional travel guide to Jordan

Jordan is blessed with a Mediterranean climate for pleasurable year-round travel.

## Amman City

The Citadel which towers above the city from atop Jabal al-Qala'a is a good place to begin a tour of the city. The Citadel is the site of ancient Rabbath - Ammon, and excavations here have revealed numerous Roman, Byzantine and early Islamic remains. The most impressive building of the Citadel, known simply as al-Qasr "the Palace", dates back to the Islamic Umayyad period. Its exact function is unclear, but it includes a monumental gateway, an audience hall and four vaulted chambers. A colonnaded street also runs through the complex. To the north and northeast are the ruins of Umayyad palace grounds.

Meet the wine maker Omar Zumot himself and get an insight into his passion for fine wine. Learn how it all began for wine making in Jordan, then enjoy an evening of wine tasting of the Saint George wines accompanied either by a set menu dinner or a variety of cheeses, cold cuts and baguettes.

## Helicopter Ride

Private helicopter companies don't exist in Jordan, so we hire ours from the Royal Air Force. The helicopter pictured above is the same one which His Majesty King Abdullah II uses for his guests. The Super Puma is a four-bladed, twin-engine, medium-size utility helicopter marketed for both civil and military use.

## Hijaz Train

Take a journey back in time on an authentic steam locomotive that still runs along the historical Hijaz Railway, dating back to the beginning of the century. Guests travel to Al Jiza, one of the many old Ottoman stations along the Hijaz Railway.

## Royal Automobile Museum

The Royal Automobile Museum depicts the history of the Hashemite Kingdom of Jordan, from the early 1920's until the present day.

The museum offers the visitor an insight into the history of the Kingdom through the exhibited cars from the era of King Abdullah I, the founder of the Kingdom, to the current era of His Majesty King Abdullah II. These exhibits recap the development of the Kingdom in pace with the automotive advancement in the country and its transformation since the Great Arab Revolt during World War I.

## Royal Stables

The Royal Stables is a passion for the Royal Family, championed by Her Royal Highness Princess Alia (sister of King Abdullah II). The stables date back to the 1970's when all the horses were owned by the Hashemite Royal Family members. The Saddles museum dates back to the time of the Islam & Arab Revolution.

## Jerash

Courtesy of the Roman Army and Chariot Experience (RACE), A&K Jordan is able to bring to life a display of Roman Army warfare techniques, including war machines in action, exclusively for our guests. Discover how the Romans lived many decades ago through this experience, set in a true ancient Roman city, Jerash.

Relive Roman society in the well-preserved city of Jerash. Traverse the desert dunes by 4WD and cook up delicious Middle Eastern cuisine.

## Ajloun

Qal'at Ar-Rabad, as it is known in Arabic, is located on a high peak overlooking the city of Ajloun, some 24 kilometers west of Jerash. This castle was allegedly built between 1184 and 1185 AD by one of the Salah-Eddin nephews to oppose the Crusaders' castles of Kerak and Shobak.

The Mameluks extended the original building, the Mongols conquered it in 1260 and its first restoration took place in 1929.

A deep moat cut into the rock surrounds the castle and the drawbridge has now been replaced by an iron footbridge. Ajloun Castle is a complex fortification with several floors, from which people were able to defend against an attack or siege, even after the first two doors had been conquered.

## Umm Qais

Gadara (known today as Umm Qais), was the site of the miracle of the Gadarene swine.

According to Matthew's Gospel, Jesus chased demons inside pigs that threw themselves into Lake Tiberias, also called the Sea of Galilee. In its day, Umm Qais was renowned as a cultural center, home to several classical poets and philosophers.

Umm Qais is perched on a splendid hilltop overlooking the Jordan Valley and the Sea of Galilee, from this natural plateau one can enjoy a spectacular view on the Northern part of the Holy Land on a clear day. Still visible are the remains from three major periods: Roman, Byzantine and Ottoman.

## Desert Castles

Jordan's Desert Castles are beautiful examples of both early Islamic art and architecture, and are a stand testament to a fascinating era in the country's rich history. Their fine mosaics, frescoes, stone and stucco carvings and illustrations, inspired by the best in Persian and Greco - Roman traditions, tell countless stories of the life as it was during the fifth to the eighth centuries.

## Kharaneh Castle

Qasr el-Kharaneh was probably rebuilt by the Umayyad in AD 711 over a Roman or Byzantine site. This mighty structure, with its imposing walls and narrow slits, looks like a military fortress; experts believe that it was probably used as a caravansary, being set on the path of several ancient trade routes.

## Amra Castle

Qasr Amra is the most charming of all the Umayyad buildings in Jordan. It was built as a bath-house (a place of leisure) by the Umayyad Caliph el-Walid I around (AD 711). The real outstanding attraction of Qasr Amra is the frescoes adorning its interior walls and ceilings.

## Azraq Castle

Qala'at al-Azraq is a large castle built out of black basalt, and in its present form dates to the beginning of the 13th century. The Umayyad maintained it as a military base. During WW1, Sheriff Hussein and TE Lawrence made it their desert headquarters in the winter of 1917, during the Arab Revolt against Turks.

## The Azraq Wetland Reserve

The Azraq Wetland Reserve was established in 1978. It is located in the eastern desert and covers 12 square kilometers. If you head east out of Amman you pass the other best known "Desert Castles" of Qasr Kharaneh and Qasr Amra on the road going through Muwaggar.

The area is home to water buffaloes, blue-necked ostriches, Nubian ibexes and countless varieties of dragonflies. Board walks and bird hides have been built to enable visitors to see and enjoy this green area in the heart of the desert.

## Biblical Jordan

### Madaba

Madaba is one of the most memorable places in the holy land; it is located south of Amman. Dubbed "the city of mosaics", Madaba offers many sites to explore.

Amongst them the chief attraction - in the contemporary Greek Orthodox church of St. George - is a wonderfully vivid 6th century Byzantine mosaic map showing Jerusalem and other holy sites. With two million pieces of colored stone and measuring 25x25 meters in its

original state (most of which can still be seen today). The map depicts hills and valleys, villages and towns, as far away as the Nile Delta. This masterpiece is unrivalled in Jordan, but there are dozens of other mosaics from the 5th through the 7th centuries scattered throughout Madaba's churches and homes.

## Mount Nebo

Mount Nebo is the mountain from where Moses was allowed to see the Holy Land... but not allowed to enter it. Nowadays the mountain is a memorial site. Here you can find the “Church of Moses”, built by the first Christians and displaying a large number of beautiful mosaics. Ever since the first days of Christianity this mountain has been a holy place and a destination for pilgrimage. Like Moses, guests can have a great view over Jordan, the Dead Sea and Israel. When the weather is clear, you should even be able to see Jerusalem, which is about 60 kilometers away.

Flexibility is an A&K speciality. Our highly trained knowledgeable team of tour consultants are experts at tailoring tour arrangements to suit individual guest requirements.

## The Baptism Site

The excavations conducted at Bethany in Jordan have uncovered a I Century AD settlement with plastered pools and water systems that were used almost certainly for mass baptisms, and a V-VI Century Byzantine settlement with churches, a monastery, and other structures most probably catering to religious pilgrims. A survey about the site documented an ancient sacred pilgrimage route that linked Jerusalem, the Jordan River, Bethany "beyond the Jordan" as mentioned in the Gospels.

John the Baptist started his mission in the land of modern Jordan, where Jesus was baptized and also ended his life. He was arrested by Herod Antipas, imprisoned in the fortress of Machareus (modern Mukawir, 65 km. south of Amman and overlooking the Dead Sea shores) and beheaded upon the request of Salome, Herod Antipas' step daughter (Mark, 6:17-29). Bethany was inscribed as a UNESCO World Heritage site in 2015.

## Dead Sea

At 400 meters below sea level, the Dead Sea is infinite in what it has to offer. With the highest content of minerals and salts in the world, the Dead Sea water possesses anti-inflammatory properties. The dark mud found on the shores has been used for over 2000 years for therapeutic purposes as well.

Since time began, travelers have been drawn to the Dead Sea to bathe in its relaxing and therapeutic waters. As rich in history as it is in minerals, this salty closed sea is the best place in the world to reinvigorate your skin and counter the effects of aging and the stress of everyday life.

## The King's Highway

An ancient route that existed for thousands of years indexing many sites of prehistoric villages, biblical towns, Crusader castles, Christian mosaics, Nabatean temples, Roman fortresses, Islamic towns and many of the archaeological sites along Jordan.

The highway was also an important pilgrimage route for Christians for it was the path followed by Moses from Mount Sinai to Mount Nebo.

Muslims used it as the main Hajj route to Mecca from Syria until the Ottoman Turks built the Hijaz Railway.

The major sites on this route are Kerak Crusaders' Castle and the Montreal Castle of Shoubak.

## Petra

A worldwide wonder, Petra is without doubt Jordan's most valuable treasure and the greatest tourist attraction. It is a vast, unique city, carved into the sheer rock face by the Nabataeans, an industrious Arab civilization who settled here more than 2000 years ago. They turned the site into an important junction for the silk, spice and other trade routes that linked China, India and southern Arabia with Egypt, Syria, Greece and Rome. Start the visit with a horse ride from the main gate of Petra to the entrance of the old city (around 800 meters ride).

## Petra By Night

Enjoy a magical, candlelit visit to the Rose-Red city of Petra. The special aura of the ancient Nabatean trading empire comes to life as you enjoy a stroll through the mysterious Siq of Petra. At Al-Khazneh (The Treasury), music and stories will help you experience Petra as the travel-weary traders of old must have known it.

## Wadi Rum

Otherwise known as Valley of the Moon, the largest and most magnificent of Jordan's desert landscapes, this is a stupendous, timeless place, virtually untouched by humans. A maze of monolithic rock capes rises up from the desert floor to heights of 1750 meters creating a natural challenge for serious mountaineers. Hikers can enjoy the tranquility of the boundless empty spaces.

## Four-Wheel Drive

These cars are owned and operated by local Bedouins of the area through their coops to support the local community, so they are simple 4x4 vehicles.

| Hot Air Balloon | Camel ride | Cocktail Reception |

## Aqaba

Greatly prized as Jordan's window to the sea, Aqaba brings a refreshing release from the rose-colored desert to the north. Its sandy beaches and coral reefs are the most pristine on the Red Sea and Jordanians continuously work hard to preserve it as such. It was built over the remains of several very ancient sites.

## Sindbad

Sindbad Marine Transportation Yachting & Water Sports celebrates over 10 years of service in the Gulf of Aqaba, providing all the water sports and yachting activities for over a decade.

## Aqaba Fort

Aqaba Fort is located on the city's waterfront. The Fort dates back to the 14th century and was built by one of the last Mameluke Sultans, Qansah al-Ghouri. An interesting Hashemite Coat of Arms hangs at its main entrance, which was placed there during WWI after the Turks were expelled from Aqaba by the combined British-Arab forces in 1917.

Abercrombie & Kent Jordan was founded in 1998 and offers the finest and most deluxe ground operations available in Jordan.

## Wild Jordan

The Royal Society for the Conservation of Nature (RSCN) is a non-governmental organization of international standing devoted to the conservation of Jordan's natural environment. Created in 1966 under the patronage of His Royal Majesty late King Hussein, RSCN has been given responsibility by the Jordanian Government for protecting the country's wildlife and wild places.

## Mujib Reserve

The Mujib Reserve is the lowest nature reserve in the world, with a spectacular array of scenery near the east coast of the Dead Sea. The reserve is located within the deep Wadi Mujib gorge, which enters the Dead Sea at 410 meters below sea level.

This 1300 meters variation in elevation, combined with the Valley's year-round water, means that Wadi Mujib enjoys a magnificent bio-diversity that is still being explored and documented today.

## Dana Nature Reserve

Dana Nature Reserve covers 308 square kilometers and is a world of natural treasures. The reserve contains a remarkable diversity of landscapes, which range from wooded highlands to rocky slopes and from gravel plains to sand dunes.

## Feynan Eco Lodge

Isolated from paved roads and electricity supplies, the Feynan Eco - lodge is a totally new concept in environmentally friendly accommodation.

This solar - powered lodge is exclusively candlelit all through the calm nights of Wadi Araba and provides 26 uniquely designed rooms for visitors who wish to explore this undiscovered and archeologically rich area of Jordan.

## Wadi Rum Sunset Reception

Watch the beautiful sunset in the desert while enjoying a glass of champagne along with some small finger food (canapés).

A black and white photograph of a resort pool area. In the foreground, a curved pool edge is lined with large, dark rocks. The pool water is calm, reflecting the sky and the surrounding landscape. To the left of the pool, there is a grassy area with a large, dark, leafy plant. In the background, several tall palm trees stand prominently. Behind the palm trees, a building with a dark, gabled roof is visible. The building has a modern, rustic feel. In front of the building, there are several lounge chairs and umbrellas, suggesting a relaxation area. The overall atmosphere is serene and tropical.
