The Don Melchor Experience with A&K

---

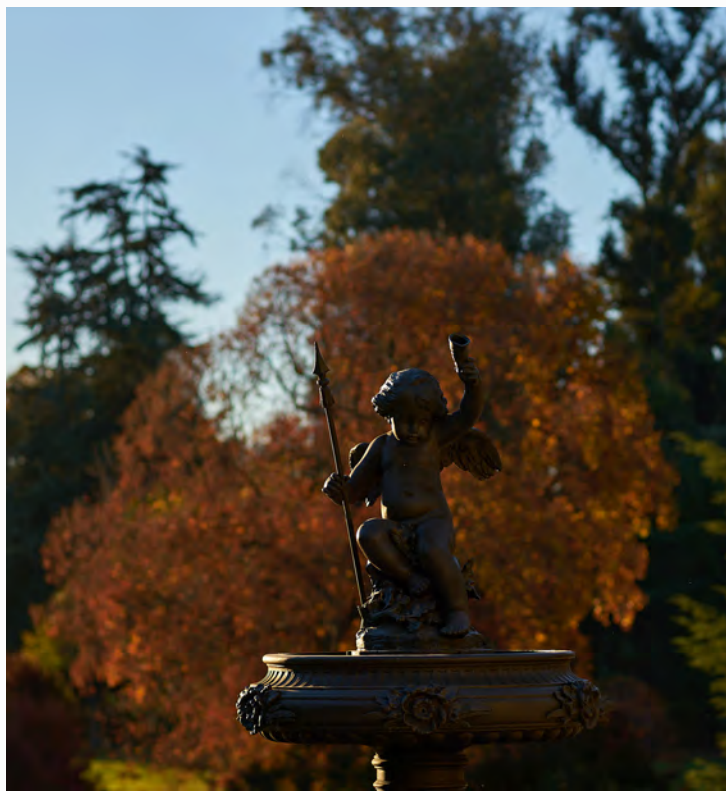

WINE COUNTRY

"Wine is constant proof that  
God loves us, and loves  
to see us happy"

**Benjamin Franklin**

A&K Chile offers a private and exclusive experience around the most iconic and recognized Chilean wine: Don Melchor.

Join us on this exclusive experience and learn how the icon Cabernet Sauvignon from the Alto Maipo Valley is made. Don Melchor's heritage, history and setting come together to make this an exceptional experience. Walk through the grounds surrounding founder Melchor de Concha y Toro's summer home, and the beautiful 22-hectare park that still houses numerous century-old species. Visit the centenary cellar, where this iconic wine peacefully ages in French oaken barrels, as well

as the original 19th-century style manor house (not open to public), where you immerse into the history of a pioneer family of vintners, to then sip into the hypnotizing taste of Don Melchor's namesake, the famous wine.

Discover the Puente Alto terroir through a selection of different parcels of the vineyard that gives rise to this wine and how each expresses the diversity of the vineyard and contributes unique characteristics, resulting in the complexity found in every bottle of this Concha y Toro icon wine. A different and exclusive wine tasting including different

parcels, a combination of them and the vintage currently available in the market will be part of the experience.

Finally, as exclusive as every experience of ours has to be, we have put the A&K touch and offer our guests the exclusive possibility of enjoying lunch in the actual main house! This will not only allow a more enjoyable visit, but will open the doors for guests to actually embrace the spirit and the essence of Chile's best wine, in the most creative, stylish and sophisticated way. Just the way we like it, and just the way your clients are used to.
